Subject: Microsoft Settlement.

I am writing to express my support of the proposed Microsoft settlement.

I think the case never should have been brought in the first place, and in has gone on for too long. Microsoft has made many concessions in this proposed settlement that I believe are very fair and address the concerns brought during the court battle.

Please don't let Microsoft's competitors continue to use the U.S. government in their battle to destroy Microsoft.

Thanks for your attention.
